Executive Development Program in

Global Supply Chain Management

from IIFT

Program Objective

Globalization led growth across industry verticals, increase in world trade and influence of competitive market global drivers has nurtured the development of global supply chains. Across the industries, SC executives have been advancing their globalization efforts for better integration of SC stakeholders and functions which has led to formidable growth in profitable global supply chains. From Automobile to Electronics including retail; industry has leveraged by designing and executing superior supply chain operations.

With ever changing global landscape it becomes imperative for managers and professionals to develop deep insights and equip themselves with apt skills and competencies to successfully manage the ever increasing complexities of global SC.

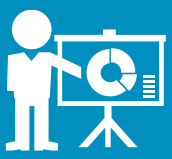
The global supply chain management development programme is designed to facilitate the development of skills for practical problem solving approach to complex areas of supply chain. It guides through and helps explore and learn various themes of global supply chains along with practical implementation.

This program will enable participants to obtain a good hands on experience with exposure to different learning tools used in the SCM domain. This programme attempts to explore core aspects of SCM in global context like SC design optimization, policy of vendor selection, SC logistics, risk management and also touches on contemporary and evolving aspects of SC analytics, digital SC etc.

The program objective is to enhance problem solving ability of SC practitioners in complex, uncertain dynamic global marketplace.

Program Highlights

Certificate from IIFT Delhi



Seamless technology

Virtual classrooms

Weekend Schedules

Benefits to Participants

- Opportunity to earn a Certificate from IIFT Delhi, a prestigious institution set up by GoI.
- Lectures imparted by eminent faculty from academia and experienced Industry professionals.
- Hands on exposure through exercises on spreadsheets and other learning tools.
- A mix of Lectures, Discussions, Case Studies and Class Exercises geared to enhance problem solving ability of SC practitioners in the global marketplace.
- Fully Online Course with LIVE online interactive lectures that provides a “real” classroom experience in a “virtual” environment. No isolated learning experience.
- Seamless technology that can transmit lecture videos effectively at home broadband connection of 512 kbps.
- User friendly and easy to use technology interface. No expensive and time consuming software/hardware installations required at your end.
- Virtual classrooms that allow for active interactions with other fellow students and faculty.
- Convenient weekend schedules.
- In the event that students miss attending the LIVE lecture on the Virtual Classroom for some reason, students will be granted access to the recorded sessions for a specified number of days/times.
- TALENTEDGE’s SLIQ Cloud Campus – Students on our virtual social learning platform are provided access to course presentations, projects, case studies, assignments and other reference materials as applicable for specified courses. Students can raise questions and doubts either real time during the live class or offline through the Cloud Campus.
- Learn from Anywhere – No need to travel to an institute or training center. Learning continues even if you are traveling or not available at any specific location. You may also learn from the comfort of your home.

- Market Entry Modes and Global Market Development
- Global Supply Chain Finance
- Best Practices in Managing Supply Chain

MODULE 2 – NETWORK DESIGN OF GLOBAL SUPPLY CHAINS

- Network Flow Models
- Supply Chain Network Design and Optimization
- Advanced Modelling of Supply Chain Network

MODULE 3 – FORECASTING DEMAND AND PROCUREMENT

- Demand Forecasting Tools and Techniques
- Strategic Make or Buy Decision in Global Context
- Global Supply Chain Purchasing Strategies
- Supplier Selection
- Global Sourcing and Procurement Optimization
- Supplier Risk Management

MODULE 4 – GLOBAL SUPPLY CHAIN LOGISTICS

- Logistics Infrastructure
- Global Trade Logistics
- Warehousing Networks
- Global Trends in Packaging and Material Handling
- Containerization
- Intermodal Transportation
- Supply Chain Security Issues
- International Trade Contracts
- Financing Global Trade and Insurance Issues
- Commercial Documents, Letter of Credit, Customs Clearance and EDI
- International Trade Practices

MODULE 5 – CONTEMPORARY ISSUES IN GLOBAL SUPPLY CHAIN

- Supply Chain Analytics and its Application
- Digital Transformation of Supply Chain
- Global Production Networks
- Supply Chain Sustainability
- Performance Benchmarks for Competitive Advantage

Program Coordinator

Ms. Sonu Verma
ASSISTANT PROFESSOR

Ms. Sonu Verma is an Assistant Professor in the area of Quantitative techniques and Operations with IIFT Delhi has more than 12 years of experience of teaching and research. She has an excellent academic record with a degree in Electronics Engineering and a gold medal in MBA. She has been associated with various projects with Ministry of Science and Technology.

Pedagogy

The primary method of instruction will be through LIVE lectures that will be delivered online via internet to participant desktops/laptops or classrooms. The lectures will be delivered by eminent faculty from both academia and industry. With an excellent blend of theoretical concepts, case study as well as real world examples from various verticals the course curriculum has been designed to deliver value. Combination of elements of application software and live discussions make it technically superior learning opportunity from an Institute of repute. The course draws on the expertise and experience of distinguished faculty and supply chain experts from industry which qualifies it as a unique programme providing practical learning experience.

All enrolled students will also be provided access to our SLIQ Cloud Campus through which students may access other learning aids, reference materials and assessments, cases and assignments as appropriate. Throughout the duration of the course, students will have the flexibility to reach out to the Professors, real time during the class or offline via the Cloud Campus to raise questions and clear their doubts.

Who Should Attend

Professionals from the industry, research scholars, young faculty members from B-schools working in the domain of operations and SC with an aptitude for learning practical applied issues related to global logistics, procurement, SC optimization etc.

Prospective participants from public and private sector, academia and entrepreneurs who are keen to gain practical knowledge and understanding of execution of SCM in business scenario are encouraged to apply for this customized and exclusively designed analytically oriented program.

Eligibility

- For Indian Participants - Graduates or Diploma Holders (10+2+3) from a recognized university (UGC/AICTE/DEC/AIU/State Government) in any discipline.
